

Debra J. Hall

Debra Hall has 40 years of experience as an international corporate, regulatory and technology attorney. She co-founded and has been co-owner of a technology company which holds a U.S. registered patent in the field of artificial intelligence.

Debra has been an advocate for high-speed broadband and, as president of two homeowners' associations brought fiber optic to 541 homes in Naples, FL. As a member of the Rockport Technology Ad Hoc Working Group, and later as an elected member and chair of the Rockport Select Board, Debra seeks to expand high-speed internet throughout Rockport and the mid-coast region.

As the chair of the Midcoast Internet Coalition, Debra is leading a coordinated effort of select board members, technology consultants and community members focused on expanding educational and economic opportunities, making tele-health available to seniors, attracting young families and creating opportunities for a vibrant workforce in the mid-coast region through 21st century telecommunications.
